

## WPP20, Yealink Wireless Presentation Pod Plug and Play, The Easiest Way of Content Sharing

WPP20 is a wireless presentation pod that partners with the Yealink new generation video conferencing system to offer a high-quality content sharing experience. Adopting 5G Wi-Fi network connectivity, WPP20 enables content sharing on an external display with just a single tap. When paired with the Yealink video conferencing system and a touchscreen television, WPP20's embedded meeting assistant software offers rich functionality such as inviting participants, conference recording and even reverse control of the laptop from the television screen. This rich feature set transforms any conference room into a hassle-free space for team collaboration.

## One-click, Trouble-free Presentations

- Easy Sharing. WPP20 connects to Yealink's 5GHz 802.11ac Wi-Fi network without the need for a router. With its excellent anti-interference capability, content sharing is smoother and easier than ever.
- Instant installation. Simply plug in WPP20 to a laptop via the universal USB port for a quick connection with the conferencing system. Users can click the button and start content sharing immediately, without any additional apps or software.
- Eliminate cabling. The wireless connectivity eliminates the cabling mess in the area between the display and the conference desk, reducing deployment costs and enabling a clutter-free meeting space.

## Low Latency Multipoint FHD Sharing

- Immediate response, smooth and easy presenting. WPP20 ensures an up to 1080P@30FPS high quality and low latency content sharing.
- WPP20 supports up to eight device connections at the same time and four streams can be presented simultaneously on the main screen.

## Feature-rich Control Functionality

WPP20's embedded meeting assistant software offers rich functionality such as inviting participants and conference recording, ensuring a fluid workflow and more effective meeting experience.

## Intuitive Reverse Control for Interactive Television

Interoperable with a touchscreen television, reverse control of the computer or laptop is easily enabled by clicking or dragging directly on your interactive television when paired with the Yealink video conferencing system and a touchscreen television.

# Broad Compatibility

Yealink WPP20 is compatible with almost all devices. Whether you use Windows or macOS, content sharing can be activated instantly with a single tap.

## WPP20 Specification

Wireless Features	Wi-Fi Protocol	802.11b/g/n/ac
	Wi-Fi Frequency	2.4GHz/5GHz
	Encryption	WPA-PSK/WPA2-PSK
Software Features	Resolution	Up to 1080p/30fps
	Device connections Simultaneously	Up to 8
	Content Streams Simultaneously	Up to 4*
	Supported Operation System	Windows 7/8/10
		macOS 10.10 or above
	Average Latency	120ms
	AirPlay	√
	PC Desktop Sharing	√
	Content Sharing with Audio	√
Specified Window Sharing	√**	
Meeting Assistant**	Video Recording	√ (Recording to PC)
